

CRITICALIS

HOW STRONG IS YOUR SECURITY, REALLY?

TOO OFTEN, BUSINESSES LEARN THE HARD WAY THAT THEIR DEFENCES AREN'T AS ROBUST AS THEY THOUGHT. IT'S EASY TO FEEL CONFIDENT WHEN THINGS SEEM FINE – BUT JUST BECAUSE NOTHING HAS GONE WRONG YET DOESN'T MEAN YOUR SECURITY IS AS SOUND AS IT SHOULD BE.

CRITICALIS. SIMPLY, SECURED. CYBER PROTECTION FOR ALL.

Many companies rely on outsourcing, without proper governance or monitoring in place. The result? You might not be getting the level of protection you think you are. The connection between security policies, processes, and their technical implementation can often get lost in translation.

And while insurance may help you recover after a breach, it doesn't take away the stress, disruption, or time spent managing the aftermath. That's why having specialists who understand both security controls and IT infrastructure is essential.

Risk Evolves and Criticalis share the same values, business approach, and commitment to security. That's why we've joined forces – to offer our clients the best of both worlds and ensure that your defences are stronger than ever.

WHAT DOES THIS MEAN FOR YOU?

As a valued client of Risk Evolves, you'll now benefit from several no-cost security assessments, courtesy of Criticalis. These assessments will give you a clear view of how effective your current defences are, including:

- **External vulnerability**
Scan of up to 5 of your internet-facing assets
- **Internal penetration test**
For up to 25 internal assets
- **General health check**
Including endpoint security, email configurations, and more

WHY TAKE ADVANTAGE OF THIS OFFER?

- **It's free**
There's no cost to you.
- **Proactive risk management**
Identify weak points before they become real issues.
- **Actionable insights**
Get detailed recommendations to resolve vulnerabilities – before someone else finds them.

CRITICALIS. SIMPLY, SECURED. CYBER PROTECTION FOR ALL.

WHAT'S INVOLVED?

We know time is precious, whether you're a business owner or managing IT. That's why we've kept this process simple and straightforward. Here's all we need:

- **For external scans**
Just let us know which website addresses or IPs you want tested.
- **For the internal penetration test**
Confirm the internal IPs for testing and deploy a provided VM image.
- **For the health check**
Provide your domain names and IPs, and run a tool we'll send to you.

Additionally, we'll need you to sign a Letter of Authority allowing us to perform the testing – we'll send you the document to sign.

HOW TO GET STARTED

YOU CAN EITHER:

- **Contact Helen** at Risk Evolves
- **Email us directly at info@criticalis.net**

We're limiting the number of free tests we can carry out each month, so if we're fully booked this round, we'll let you know when we can schedule your assessment.

Don't wait until a breach happens to discover your vulnerabilities. Get in touch today to take advantage of this offer and ensure your defences are as strong as they should be.
